The Mail from Georgetown, B. C., is received twice daily by 5 s. m., and 5 p. m., and it is closed for that place at the same hours.

The Mail from Rockville, &c., Md., is received Monday, Wednesday, and Friday, of each week, by 5 p. m., and it is closed for those places at 9 p. m. of the same days.

The Mail from Brookville, &c., Md., is received by 5 p. m. of Wednesday and Saturday, each week, and closed for those places at 9 p. m. of Monday and Thurs day,

Upper Marlboro, '&c., Md., received by 4 p. m., Monday, Wednesday, and Friday, and is closed same days at 9 p. m. Port Tobacco, &c., Maryland, received Tuesday, Thursday, and Saturday, by 5 p. m.; closed Sunday, Tuesday, and Thursday, at 9 p. m.

Warronton, Middleburg, &c., Va., received Sunday, Wednesday, and Friday, by 11 p. m., closed at 9 p. m., Monday, Wednesday, and Friday.

Leesburg, &c., Va., received by and closed at 9 p. m., Monday, Wednesday, and Friday.

Leesburg, &c., Va., received by that on all printed matter addressed to any foreign country, is required to be paid in advance. The postage is also to be prepaid on letters and packets addressed to foreign countries, other than Great Britain, Ireland, and Scotland, and Bremen, in Europe, and some places to which they pass through the Bremen post office.

than Great Britain, Ireland, and Scotland, and Bremen, in Europe, and some places to which they pass through the Bremen post office.

\*\*En The Office is open from half-past 7 o'clock, s. m., to 9 o'clock, p. m., daily, except Sunday, and on that day it is open from half-past 7 to ten, a. m., and from 7 to 9, p. m.

WILLIAM A. BRADLEY,

PROSPECTUS OF THE "NATIONAL MON-UMENT,"

A weekly journal to be published in Washington, under the sunction of the Washington National

JAMES C. PICKETT, EDITOR AND PUBLISHER.

Monument Society.

JAMES C. PICKETT, EDITOR AND PUBLISHER.

The Monument is intended to be a literary, agricultural, and miscellaneous paper. It will contain selections of the literature of the day—the best that can be found in American and English publications: interesting scientific articles, embracing mechanics; foreign and domestic news; a synopsis of the proceedings of Congress, and every thing that such a journal might be expected to contain, with the exception of party politics, which will be at all times most rigorously excluded.

The Monument will be published for the express and the sole purpose of siding in the erection of the noble column now rising on the banks of the Potomac, in honor of the Father of his Country, and which every one who venerates the name of Washington would rejoice to see completed. After deducting out of the subscription the expenses of the journal proposed to be published, the remaining funds will be faithfully applied, and without reserve, to the purpose indicated. The aid, therefore, of all who are willing to contribute to so patriotic an object, and one so entirely national, is carnestly requested. By subscribing to the Monument, a valuable journal at a low price may be obtained, while it will be doing something, at the same time, towards completing that majestic memorial of the Nation's gratitude.

The Board of Managers recommend Mr. Pickett, formerly Fourth Auditor of the Treasury and Charge d'Affairs to Peru, who proposes to edit and publish the Monument journal, as one well qualified to perform the duties of Peru, who proposes to edit and publish the Monument inthat this enterprise is not a speculation got up for individual emolument. Mr. Pickett will make the experiment with his own means and at his own risk; if successful, he will receive nothing more, and he asks nothing more, than a very moderate compensation for his services. Not one dollar, therefore, of the direct subscription to the erection of the Monument will be, in any event, applied to the support of the pa

nousand dollars.

The postmasters, and secretaries of all organized bodies broughout the Union, are respectfully requested to act a agents in obtaining subscriptions, thus aiding the great bleet of our exertions.

As all editors and publishers, on account of the object or which the Monument newspaper will be established, must wish it to succeed, it is hoped that they will contribute to its succees by publishing this prospectus.

All moneys will be remitted, and all letters and moneys addressed prepaid, to the general agent of the Monument Society, Hon. Elisha Whittlesey, Washington.

OFFICERS.—Millard Fillmore, ex-efficio President; Arch. Henderson, First Vice President; Walter Lenox, (Mayor & Washington.) Second Vice President; Thos. Carbery, Chird Vice President; J. B. H. Smith, Treasurer; Geo. Watterston, Secretary.

Watterston, Secretary.

Board of Managers.—Winfield Scott, N. Towson, Thos. Munroe, W. A. Bradley, P. R. Fendall, Walter Jones, Thomas Blagden, Peter Force, W. W. Scaton, M. F. Maury, T. Hartley Grawford, Benj. Ogle Tayloe, Elisha Whittlesey. Terms.—The Monument will be printed on a double-royal sheet—the paper and type being of the best quality—and in quarte form, containing sixteen large pages, that it may be more easily preserved. The price will be two dollars per annum, payable on the receipt of the second number. The nature of the enterprise not admitting of any credit, none can be given.

try credit, none can be given.
Societies and clubs will be furnished with the MONUMENT

ving terms: 3 copies for \$5; 5 copies, \$8; 10

on the following terms: 3 copies for \$5; 5 copies, \$8; 10 copies, \$15; &c.

Those who are disposed to patronise the Monument are requested to forward their names to the General Agent, without delay. The first number will be published early in May, and the second on the second day of August, and weekly thereafter; time being allowed for the Prospectus to be circulated, and for the agents to make returns. As all subscribers will be contributors to the Monument itself, their names will be published in the paper.

WASMINGTON, April 23, 1851.

COOPREY PATTISON & CO., NEW YORK

(\*\*ODFREY PATTISON & CO., NEW YORK, V. take leave to inform their friends and the public, that they have taken up the Importing Business on their own account. For the future they will confine themselves strictly to the Commission Business, for the purchase of dry goods, in Glasgow, Scotland.

From their long experience in the trade, they feel confident that they can promote the interest of those engaged in the importation of dry goods, and they respectfully sollet orders, which shall have their best attention.

The name of the firm in Glasgow is changed to GODFREY PATTISON & Co.

The Name of Co.

The New York firm being dissolved, they will be pleased to receive orders through their agent, James Pattison, No. 31 Pine street, New York.

GODFREY PATTISON & Co., Commission Merchants,

The subscribers being alone entrusted with samples of cloth and patterns of these goods for the United States market, invite the attention of the trade.

GODFREY PATTISON & Co., Glasgow Office, 81 Pine street, New York.

mar 24—

STRAW GOODS.

DOKER, BROS. & JONES, 82 Market street, Philadelphia, invite the attention of the trade to their splendid stock of Fancy and Staple BONNETS and HATS, of all kinds, purchased for cash in Europe by one of our firm; and also an assortment of city and eastern made Boots and Shoes. All of which they offer at very low rates.

THE BEST AND MOST VALUABLE AGRICULTURAL IMPLEMENTS AND MACHINERY, exhibited at the State Fair in 1850, will be seen by the award of Pre-miums below:

miums below:

Awarded to E. Whitman, jr., No. 55 Light street, Baltimore, by the Maryland State Agricultural Society, at their
3d Annual Fair, held in Baltimore 23d, 24th and 25th of
October, 186.

For the best Plough in the ploughing match
For the best ploughing with ox team, (special pre

mium.)
For the best plough on exhibition, 1st premium
For the best Railway Horse Power, Whitman's Improved, 1st premium
For the best Cornsheller, 1st premium
For the best Cornsheller, 1st premium
For the best Corn-Stalk Cutters and Grinders, 1st
premium

For the best Corn-Staik Cutters and Grinders, 1st premium

For the best Churns. 1st premium

For the best Hay and Manurs Fork, 1st premium, 2

For the best Hay and Manurs Fork, 1st premium, 2

For the best Hayrakes, 1st premium 4

For the best Cutivator, 1st premium 4

No exhibitor of Agricultural Implements at the above named Fair, having received one-half the amount of premiums awarded us on the different kinds of Implements and Machines, it is conclusive evidence that ours were considered the best and most valuable on exhibition.

At the great Fair of the Maryland Institute, for the promotion of the Mechanic Arts, held in Ballimore in October and November, 1856, the first premium (a heavy Silver Medal) was awarded to Ezra Whitmen, ir. for the largest and best display of Agricultural Implements. Also first premium (another Silver Medal) for his improved Wrought Iron Rallway Horse Power, which was made for exhibition at the World's Fair, in London, in May, 1861.

Our stock this season will be the largest ever offered in this city, and probably the largest in the world, consisting of more than 8,000 Ploughs, 250 Threshing Machines.

1000 Wheat Fans, 1000 Corn Shellers, 500 Straw Cuttlers, 1000 Wheat Fans, 1000 Corn Shellers, 500 Straw Cuttlers, 500 Cuttivators, Rasping Machines, Wheat Drille, Corn and Cob Grushers, Burr Stone Mills, Citer Mills, Hay and Cotton Eresses, together with every article which a farmer or planter could wish in the prosecution of his pursuits; all of which will be sold on reasonable terms, at wholesale or retail.

E. WHITMAN, 1r., & Co.

RELIGIOUS INSTRUCTION.

In addition to daily morning and evening prayer, divine worship is held twice on every Sunday, and the recitation on Monday morning is always in the Greek Testiment. At the request of his parent or guardian, a student is permitted to attend any place of worship which himself or the parent or guardian may select. One member of the Faculty will attend at each of the different places of worship (Presbyterian, Episcopalian, and Methodist) in the village, and note all absentees.

Two at least of the Professors, with their familias, will reside in the College buildings, and will board at a common table with the students, who are required to occupy such rooms as may be assigned them by the Faculty.

ADMISSION.

English Common Law Reports,

58 Folumes, with a complete Index to the first 47 Volumes.

Since volume 39 of this series, The English Common Law
Reports have been reprinted in full. With volume 44, we
commenced binding each English volume separately, instead of, as formerly, two English in one American volume.

Price—For the first 43 vols., \$3 50 per vol.

For the succeeding, 2 50 "

The reputation which these Reports maintain in England and in the United States is known to all the Profession. The low price at which they are offered, compared
with the rates of some of the principal American Reports,
of even inferior merit, recommends them particularly to
the attention of those purchasing Libraries.

A General Index to the first 47 Vols. of the Eng-A General Index to the first 47 Vols. of the English Common Law Reports.

By Hon. George Sharswood and George W. Birdle, English 1 vol. 8vo.—\$5 00.

With this Key to their contents, the English Common Law Reports present to the Profession a mass of legal learning in the shape of Opinions, Data, elaborate Arguments, &c., &c., safficient, probably, for the Elucidation and Prosecution or Defence of any case that can arise in our Courts of Law; and being thus made easily and instantly accessible, these Reports will be found so comprehensive, convenient, and cheap, as to supersede the necessity of other or more expensive scales.

The Index will be found of great value to all possessing the Reports; and of great convenience to those having access to, but not owning the series.

istry.

The tuition fee for Modern Languages will be eigh dollars per session, to be paid to the Instructor in ad

To be reprinted in full, in best style, with American Notes, by J. I. CLARK HARE and H. B. WALLACE, Esque, at \$2.50 per vol., bound.
Including McClelland and Younge, Younge and Jervis, Crompton and Meeson, Crompton, Meeson and Roscoe, Meeson and Younge and Collyer—in Equity.

Equity.

Messon and Weisby, in 19 vols., Weisby, Huristone and Jordon, vol. 1, published and ready for delivery. \*\* We take pleasure in referring to the accompanying etters, explanatory of the character of these Reports, and value to the Profession in this country:

their value to the Profession in this country:

Cambrings, January 25, 1845,

Messrs. T. & J. W. Johnson:

Gentlemen—In reply to your letter, I can with great sincerity say, that I entertain a very high opinion of the recent Exchequer Reports. In my judgment they are not excelled by any cotemporaneous Reports, in learning, ability, or general utility and interest. The cases decided are discussed with great care, and expounded with uncommon force. I scarcely know of any volumes which I deem of more importance or value for a Professional Library.

JOSEPH STORY.

Gentlemen: Your letter of the 24th has been received, in which you ask my opinion as to the value of the English Exchequer Reports, from Price downwards to this time, to an American Lawyer, and as to the expediency of reprinting them in this country. Of the high value of reperinting them in this country. Of the high value of reperinting them in this country. Of the high value of these Reports, both on the Pleas and Equity sides of the Court, I have not the least doubt—the decisions of this Court for the last filteen or twenty years, both at Equity and in Common Law, being entitled to equal respect with any others in England. I should think an American Lawyer's Library essentially incomplete without them.

I am, gentlemen, very respectfully yours,
EIMON GREENLEAR.

Law Library.

Leading Cases in Law and Equity. In Three Series-With American Notes.

The English Ecclesiastical Reports.

Seven Volumes—424 50.

Furnish a series of Decisions in the Ecclesiastical Courts of England and Scotland, from 1790 to 1838, and contain seventeen English volumes condensed in seven.

"We respectfully comment this series to the notice of the Profession. It contains the only reports of the many important cases of Wills, Settlements, Divorcess, &c., and covers the whole of that important branch of the law embraced in this country by the Orphans' Court Practice.

"It would be difficult to point to any English Reports of more general value in the United States, than this selection of Decisions?"—Marvin's Legal Bibliography.

British Crown Cases Reversed.

Three Folumes—\$9.01 is \$10.00 for the continued.

The Decisions upon the Crown Cases reversed for the consideration of the Twaiter Jugges of England, are of the first importance to the due administration of the criminal justice of the country; and in committing to the press those which have occurred during a recent period of more than forty years, the publishers believe that they are making an acceptable communication to the Profession and the public.

The three volumes already published contain all the Reversed Cases since Leach.

The three volumes already purely form of the first state of the first

THE subscriber has not yet disposed of his real estate in Prince William county, Virginia. He is still desirous of selling, and will do so on accommodating terms. It consists, first, of 947 series of land, in from two and a half to four miles of Brentsville, the county town, four teen miles of Occoquan, thirty miles of Alexandria, and from four to five miles of the Orange aid Alexandria Railroad, which will be completed to Brentsville this year. This land is well adapted to the growth of wheat, corn, rye, eats, and grass. It is a mixture of the red and grey soil, and admirably adapted to improvement by the use of clover, placter, guano, &c. It is heavily timbered, and finely watered, having lasting springs of the purestwater. It is capable of being divided into five or six good sized farms, and with tolerable buildings and small orchards on four of them. I will sell it all in a body to a company, or will divide it to suft purchasers, at prices ranging, according to quality, at from \$2 to \$3 per acre. I will only require one-fourth of the purchase money in hand, and the balance I will divide in three annual payments, to bear interest from the date of sale, to be secured on the property. Land is rapidly rising in value in the neighborhood, and I offer great inducements now, as I wish to turn my attention to other pursuits.

Secondly. A square of biilidings in the town of Brentsville, suitable for a carriage-maker, wheelwright, or blacksmith, carriage, and wheelwright slopes, and other necessary buildings. \$1600 is now my price for this property—on the same terms as the land. It is within a mile and three quarters of the railroad.

Thirdly. Nine and a quarter acree of land on the turn. REAL ESTATE IN VIRGINIA FOR SALE.

C. H. VAH PATTEN, M. D.

the same terms as the same. It is within a finite and three quarters of the railread.

Thirdly. Nine and a quarter acres of land on the turn pike, just above Buckland, on which are a good dwelling house, a large wheelwright shop, kitchen, stable, dairy and smoke-house. It would make a good tavern stand and the shop a good stable. For this property I will take and the shop a good sta \$500—on the same terms.
Fourthly. A large lot in the willage of Buckland, known as the tan-yard lot, on which there is a comfortable house and kitchen—lot enclosed. The tan-yard is in bad condition, but might be easily resuscitated, and is a very good place for the business. For this I will take \$400—on like

Fifthly. A lease lot in Haymarket, with a pretty goo

Fifthly. A lease lot in Haymarkef, with a pretty good house, kitchen, a large shoemaker's shop, stable, &c. The buildings are a little out of order. The lease may run for ten or twelve years. For this I will take \$100.

Sixthly. A valuable farm in Alleghamy county, Maryland, containing 200 scree, within eight miles of the National Read, and ten to twelve miles of the Baltimore and Ohio Railroad. This farm is in a thriving neighborhood, is heavily timbered, has a good and never-failing stream of water running through it, and several mill-seats; abounds in fron ore and coal; has a fine sugar maple orchard on it, and a mineral spring, which I think equal to the White Sulphur or Bedford, and has now some forty or fifty acres of the land cleared. The soil is not surpassed by any in the country. I am disposed now to take \$4 per acre for it. Mr. Abraham Steel, who lives near it, will show it to any one wishing to purchase. The property in Prince William country, Virginia, will be shown by Eppa Hunton, esq., who is authorized to sell; or by Mr. Edwin W. Latimer, or Mr. Robert Hodgkin. I shall be in Brentaville about the middle of May, and will, in person, show the property to any one wishing to purchase.

HENRY A. BARRON,

At Mrs. Gassaway's Boarding-House, D street, between 7th and 8th, south side, Washington.

MOTICE.

BALTIMORE AND WASHINGTON RAILROAD.

On and after WEDNESDAY next, 9th instant, the station on Pennsylvania avenue will be vacated, and the new one on New Jorsey avenue occupied.

The Passenger trains will leave the latter, commencing at 5 p. m., as usual, at 6 and 9 a. m. and 5 p. m. delly, except on Sunday, when but two trains run, viz. at 6 a.

at 5 p. m., as usual, at 6 and 6 a. m. and 5 p. m. daily, except on Sunday, when but two trains run, viz., at 6 a. m. and 5 p. m.

In making this change, the undersigned desires to call attention to the rules of the Company, in regard to the reception and delivery of merchandise:

1st. Shippers are reminded, that in all cases a bill with full directions should accompany the goods.

This is for the protection of both parties, and unless complied with the goods cannot be received.

2d. Consignees are notified that all merchandise must be removed on the same day upon which it is received, as the Company cannot hold itself responsible for any thing left in its house during the night.

The undersigned takes occasion to remark that these are not new regulations, but he has been compelled to call attention to them from their frequent violation, which has caused much and serious inconventers.

FURNISHING MAIL LOCKS & KEYS.

other kind for those now in use for the mail service of the United States, specimen locks and keys, with proposals to furnish the same, will be received and considere at the Post Office Department until the first day of July next.—The different looks will be submitted to a commission for examination and report. Upon this report, contracts will, as soon as practicable, be entered into for furnishing such locks and keys for four years, with the right on the part of the Postmaster General, for the time being, to extend and continue the contract in force for an additional term of four years, by giving to the contractor a written notice to that effect, not more than nine nor less than six months before the termination of the first term of four years.

tional term of four years, by giving to the contractor a written notice to that effect, not more than nine nor less than six months before the termination of the first term of four years.

With a view of procuring the best lock at the lowest price, no kind of lock is prescribed as a standard, the Department relying for a selection on the mechanical skill and ingenuity which a fair competition, now invited, may develop. It is, however, proper to state that a lock suitable for the mail service should possess the following qualities, viz: durability, uniformity, lightness, and strength.

For the purpose of displacing simultaneously all the mail locks and keys now in use, about thirty thousand new locks and twenty thousand keys adapted thereto will be required to be furnished by the contractor within seven months after the contract shall have been entered into; afterwards the annual supply will depend on the durability of the locks and keys adopted, as well as the increase of the mail service; but it will probably never exceed in amount three thousand of the former and one thousand of the latter.

No lock will be considered if it be like any already in general use; nor will any one with whom the contract may be made be allowed to make, sell, or furnish, any lock or key similar to those contracted for for any other purpose or use than that of the Post Office Department.

The kind of lock adopted must be patented, and the patentee will be required, on entering into contract, to make an assignment of his patent for the exclusive use and benefit of the Department, if the Post Office Department.

The kind of lock adopted must be patented, and the patentee will be required, on entering into contract, to make an assignment of his patent for the exclusive use and benefit of the Department, if the Postmaster General shall have the right of contracting with different individuals for such different kinds of locks and keys.

In deciding upon the proposals and specimens offered, the Postmaster General may deem that courae for t

HUNT'S MERCHANTS' MAGAZINE

BY PREEMAN HUNT, EDITOR AND PROPRIETOR. THE Number for December, 1850, completed the twenty-third semi-annual volume. The work has been
nlarged since its commencement in July, 1850, and each
volume now contains more than seven hundred large ocavo pages. A few complete sets of the Magazine may be
bitained at the publisher's office, 142 Fulton street, New
York, neatly and substantially bound, for two dollars and
a half per volume.

obtained at the publisher seeffice, 142 Fuiton street, New York, neatly and substantially bound, for two dollars and a half per volume.

The following are a few of the many commendatory letters received by the editor of the Merchants' Magazine from distinguished statesmen:

Letter from the Hon. Henry Clay.

Ashland, 20th July, 1849.

Dear Sir: I wish to express to you the gratification I derived on receiving the July number of the Marchants' Magazine and Commercial Heriew, from viewing your portrait in the beginning, and from reading your address to your friends at the end of it. When we feel under obligations to those who have contributed to our information and amusement, we are naturally desirous to possess all the knowledge of them, of their appearance, of the features of their countenance, and of the character and habits of their mind, which we can acquire. You have placed your numerous readers (at least you have me, if I may not speak for them) under those obligations; and the number of your valuable work new before me, in some degree, satisfies the desire to which I have alluded.

I have become quite familiar with the Magazine and Review, and have no hesitation in expressing my humble opinion that it is emineutly entitled by the public regard and support. It collects and stranges, in good order, a large amount of valuable statistical and other information, highly useful not only to the mardean, but to the statesman, to the cultivator of the earth, to the manifacturer, to the mariner, in short, to all classes of the business and reading community.

Entertaining this opinion, I am gled that it has been, and hope that it may continue to be, liberally patroaized.

Officing you cordial assurances of my esteem and regard, I am truly your friend and obedient servant;

Freeman Hunt, eeg.

Exterd of a letter from Hon. Milard Milmors.

"I have read it (Merchanta' Magazine) with a good deal of attention, and have no hesitation in asying that I think it one of the most valuable periodicals that, was ever published. T

where so well digested and so accessible as in these numbers. I only regret that I do not own the whole work."

Letter from the Hon. Thomas H. Benton.

WABHINGTON CITY, April 20, 1649.

Mr. Preeman Hunt.—Siv: I owe you many thanks for the opportunities I have had to read the Merchantic Magazine, and have found it in reality to be a magazine, and that well replenished, of all the useful matter which the title would imply, and presented with a fullness and clearness which delights while it instructs. It is, in fact, a merchants' magazine in the large acceptation of the term—merchants who go between nations whose large operations bring many departments of knowledge, and a view of the state of the world, into dally requisition. But it is not the great merchant only, but the one of more modest, but, nevertheless, of most useful operations—the merchant of the interior also—who will find this magazine to abound with the information the pursuit of his business and the elevation of the mercantile character requires. Nor is its utility at all confined to merchanis, but exceeds to the legislator and diplomatist, and to all who are charged with managing the affairs of the nation. For myself, I have found it most useful to me in my senatorial labors, and have been in the habit for many years of carefully consulting it.

Yery respectfully, sir, your obedient servant,

THOMAS H. BENTON.

Letter from Hon. Was. H. Seagard.

My Dear Sir; Have the goodness to place my name on your list of subscribers for the Merchanta' Magazine. I

My Dear Sir; Have the goodness to place my name on your list of subscribers for the Merchants' Magazine. I regard it as an invaluable work for the use of all who would understand not merely commercial operations in this extending country, but the fiscal and commercial questions involved in the administration of the govern-

ment.

SPRING IMPORTATION. W & S. PHIPPS & Co., 65 and 66 Broadway, New York, and 16 Milk street, Boston, are now re-ceiving a complete assortment of British, French, and Ger-man Shaple and Fancy Dry Goods, which they offer on liberal terms.

N. B. Will receive the newest style of Dress Goods every steamer. A large assortment of Trimming Go always on hand. BALTIMORE PIANO FORTE MANUFACTORY.

ELASTIC\* UNIVERSAL TOUCH.

WISE & BROTHER, Manufacturers of Bondoir, Grand, and Square Fanos, request those who would be assured of a first class Plano, one that ladies can perfore with the greatest possible advantage—one that the trush can be instantly adjusted to the exact strength of the angers and movement of music, one that will stand in concert tune, one that the tone will not become shrill and grating, that is chaste of style and elegantly made in of straight and regular curve lines, that will last an age—so give them a call. The ancient standing of the Brillimore Factory, and liberal patronage of clisicus and others of the first order of artistic taste and science, conceded at once the most critical, have been fully anticipated. Their recently finished Grand Plano, minutely reviewed by the most accomplished civil sugineers and master artists, has been denominated truly a Grand Flano; also, that their late Boutoir, for style, power, and compass of tone, is not surpassed, if equalled, in the world. Friends and customers, please stop in and examine for yourselves.

No. 31 Hanover street, Baltimors.

\* Elastic, because the keys recover their quiescent place

\* Elastic, because the keys recover their quiescent place in time equal to the displacing. Universal, because the same instrument may be instantly altered to any degree hard, or soft touch, so that ten thousand or more performers, all different, may each find the touch they prefer.

COLD SPRING WASHING WASHING

COLD SPRING WATER CURE.

COLD SPRING WATER CURE.

THIS NEW AND SPLENDID ESTABLISHMENT for the scientific treatment of the various diseases with which the human system is afflicted, is situated about three miles from the city of Buffalo, in a rural spot, and so accessible from all points as to be reached without inconvenience or delay.

A line of omnibuses runs from the steamboat landing in Buffalo to the springs every ten minutes.

The house and grounds are near the extensive and beautiful green-houses and unseries of the Messra. Hodges & Bryants; and the scenery in all directions is unsurpassed, as regards either variety or beauty; embracing points of view, from which may be taken in at a glance the broad expanse of Lake Eric, the Niagara flowing majestically towards the Falls, extensive forests, and the "Queen City of the Lakes," with its moving panorams of steamboats and ceaseless enterprise.

The water, taken immediately from the celebrated "Cold Spring," is unsurpassed as regards coldness and purity, by any in the United States. The house, recently erected at a cost of about seven thousand dollars, has been fitted up in a neat and elegant style, at considerable extra expense, and is sufficiently capacious to accommodate seventy-five patients.

Connected with the establishment, and constituting one of its attractions, are the fixtures and conveniences for innocent and healthful gymnastic axurdises.

MEDICAL DEPARTMENT.

MEDICAL DEPARTMENT.

The institution is under the general supervision of S. M. Davis, M. D., Professor of the Theory, and Prartice of Medicine in Central Medical College, and Geo. W. Davis, M. D., formerly of Dansville, N. Y., the resident physician, and is permanently sesociated with the before mentioned gentleman as counsel, and associate of the medical logard of control. And the friends of the establishment deem it a matter of felicitation that the services of Miss Mary M. Taylor, a lady of high medical attainments, who has attended two courses of lectures in the Central Medical College, have been secured, and that female patients can at any time avail themselves of her invaluable aid and counsel.

The steward's department is under the control of a gentleman eminently qualified for that position; and unweated patients will be taken to have every thing appertaining to the establishment arranged on a plan, and conducted in a way, to ensure the comfort, and promote the health and happiness of all who may wish to avail themselves of its benefits. Baths of all descriptions, adapted to the cure of the various forms of disease, and constructed on a rais not inferior to those of any other establishment in this country.

An enlightened public sentiment has every where repu-

of the various forms of disease, and constructed on a scale not inferior to those of any other establishment in this country.

An enlightened public sentiment has everywhere repudiated a reckless use of drugs in the treatment of disease; while intolerable sufferings and broken constitutions have imperatively demanded, "Reform." A return from a wide and fatal departure from the simplicity of Nature's laws is called for, allke by a rational love of happiness and the deplorable exigencies of our condition. Hydropathy, or a scientific use of water as a restorative and curative agent, is a practical substitution of a simple and remarkably efficacious mode of curing the sick; for that system of drugging, depleting, and cauterizing, which, in obtaining the mastery over disease, too frequently places the patient beyond the reach of further annoyance. The success of the various Water Cure establishments in this country, to say nothing of any other, has fully confirmed the hopes of the cury discoverers and promulgators of the great traths upon which the system is founded, and renders verbal communications unnecessary. It is deemed sufficient to say, that the "Celd Spring Water Cure" will compare favorably with any of the well-conducted establishments of a similar character, and will be found equal to the best, as regards the order, convenience, and desirableness of its arrangements. The institution is now open for the reception of patients, and in full operation.

TERMS Broders, Ornamenta, &c., their assortment del in the United States; and their important particles and of preparing metal, enable orders in a manner to insure satisfaction, sec. Cases, Stands, Chases, Galleys, Printery article used in a printing-office, conjust the lowest rates.

Presses, and Type used only in stereoglerics, and their manner to the properties of the companies of the patient of the patient to furnish their comforters, one woollen blanket, and four towels; or, where it is not convenient for the patient to furnish them as above, they can be supplied the establishment by paying fifty cents a week.

All communications for medical advice should be addressed either to S. M. Davis, M. D., or to George W. Davis, M. D., 239 Main treet, Buffalo, N. T.

B. M. & G. W. Davis & Co., Buffale, mar. 24—

MORE HOME EVIDENCE.

The Testimony of one of our lawyers.—

In Jas. L. Hamilton.—Dran Sir.: Although the number and respectability of the testimonials of which you are already in possession, as to the efficacy of your Medicine, "THE CREAT VA. REMEDY?" in the diseases which it is designed to cure, are sufficient, in my opinion, to establish its reputation, and secure for it such patronage as will adequately revard you for the discovery of so inestimable a Medicine—yet the great benefit which I have derived from its use, and the salutary affects which I have witnessed from its use, and the salutary affects which I have witnessed from its use, and the salutary affects which I have derived from its use, and the salutary affects which I have witnessed from its employment in the cases of several friends, to whom I had recommended it, constrain me to contribute, for such use as you may think proper to make of it, this formal acknowledgment of its canitary virtues. My own case was Dyspepais of long duration, and very aggravated in its character, manifested by an almost total destruction of the digestive functions, great deblify, nervousness, emeciation, and impaired appetite, with pain, and a burning sensation in the left side of the chest, palpin, and a burning sensation in the left side of the chest, palpin, and any other symptoms indicative of the worst type of the disease, by the use of three or four bottles of your preparation, been entirely relieved. The cases of my friends, in which your Medicine was taken, were Dyspepsis, Chronic Headsche, and Sore Throat, in all of which it proved efficacious, after the trial of a vast number of other remedies without benefit. Your medicine is as pleasant to the tangement of the stomach, restores the wasted or enfeebled energies of the digestive organs, and imparts strength and reanimation to the whole system.

Very respectfully, yours, &c.,

J. HOWARD GRIFFITH,

Marshall Buildings,

Faltimore, Aug. 24th, 1850.

the Institution.

7th. A DEPARTMENT OF MODERN LANGUAGES—In which students who wish to take a thorough course can have an opportunity of doing so; while others, whose object may be to acquire sufficient knowledge to translate with facility, and to pronounce with telerable correctness, in as short a time as possible, are also provided for.

Newark Academy.

By a late reorganization of this department of Delaware College, the Board of Trustees have taken measures to place it upon a new and improved foundation, and to endow it with advantages posseased by few similar institutions in the country. The Academy, heretofore merged in the College, and of course subjected to all the evits which have been found to attend the amalgamation of the two departments in the same government, now enjoys the privilege of a separate establishment, without losing those which result from its relation to the College proper.

A large and elegant edifice, with all the necessary fixtures of a complete boarding establishment, has been erected and furnished, in which the students of the Academy board, under the immediate charge of the Principal and his Assistants; and all its exercises are conducted on a system of its own, uninterrupted by the interests or operations of the other department. The furniture of the study-cooms and deriniferies has been chosen with peen-liar reference to comfort and convenience for study; and no expense has been spared in providing the apparatus necessary to render the means of instruction complete; giving to Newark Academy facilities for pricets study and comfortable accommodation of students, fully equal to those afforded by many of our colleges.

From its intimate relation to the College, students of the Academy enjoy many advantages not generally obtained at institutions of this kind. Those who wish to pursue some particular branch which falls more properly within the College course, may be admitted to recibe in any of the College classes. Students also of proper age and discretion, by recommendation of the Principal, and permission of the College as can be profitably enjoyed by academical students.

The charge for Boarding, Washing, Fuel, Light, &earth, within the English Latin, and Greek.

WILBINGTON BOARDING SCHOOL
FOR BOYS.—This institution is situated in one of the healthiest parts of the city of Wilmington, entirely beyond the settled portions of the town. The uniform healthrulness of the location may be inferred from the fact that, since the establishment of the School, about twenty-eight years, very few cases of serious indisposition have occurred among the pupils, and not a single death either here, or from diseases contracted while here.

The course of instruction includes, besides the ordinary English branches, Satural Phillosophy, Chealstry, Physiology, History, Rhetoric, the various branches of Mathematics, and the Latin, Greek, and French languages. Particular attention is paid to the higher Mathematics and their application to Mechanics and Engineering; the latter and Surveying are taught practically by felid operations, with the use of appropriate instruments. Lectures on Natural Philosophy and Chemistry in wide all the important principles are illustrated by experiments, are regularly delivered before the students.

As the object is to make the instruction as thorough and practical as possible, no expense has been spared in providing suitable apparatus. It is believed that, in this respect, the Institution will compare favorably with any similar one in the country. A carefully selected fibrary, of more than one thousand volumes, containing works on the various branches of Literature and Science, furnishes ample reading matter; while a Laboratory, fully supplied with apparatus and tests, contains all that is necessary for practical instruction in Chemical Manipulsion.

The school year communeed on the third Second-day (Monday) of the Ninth month (September), and is divided into four quarters of eleven weeks each, leaving a vacation of two months, from about the middle of the Seventh month (July).

The College is provided with a Philosophical Apparatus that furnishes ample means of experimental illustration in all the different branches of Natural Philosophy. The sum of three thousand dollars has recently been expended, partly in this country and partly in London and Paris, in the purchase of new apparatus, adapted to the present advanced state of the Physical Sciences.

EXAMINATIONS.

At the close of each study, or branch of study, the mean bers of the class are carefully examined, and, at the clos of the year, in all the studies of the year, in the presence of a Committee of the Trustees; and their attainment are communicated to the Board of Trustees.

RELIGIOUS INSTRUCTION.

THROUGH TO PITTSBURG IN 33 HOURS. An express train of cars will leave Calvert Station daily, with the U.S. Mail from Washington and Baltimore, at 8½ a. m., connecting with the Fast Line at Middletown at 1 p. m., arriving at Harrisburg for the West at 2 p., m. arriving at Harrisburg for the West at 2 p., m. arriving at Hollidaysburg at 8 p. m. At this point, passengers have the option of taking either the Cars to Johnstown, thence by Packet Boats, or Stages direct from Hollidaysburg to Pittsburg.

Tickets will be sold to the following points, by this train, to wit: York, Wrightsville, Columbia, Marietta, Middletown, Harrisburg, Newport, Millerstown, Perrysville, Lewistown, McVeystown, Kuntingdon, Hollidaysburg, and Pittsburg.

This train also connects with the Cumberland Valley Rallroad, which passes through Carlide, Shippensburg, Chambersburg, and other points on this road.

For the accommodation of passengers from Washington for any of the above points, the Baggage Master of the Company will be at the Depot of the Baltimore and Ohio Rallroad Company on the arrival of the Morning Cars, at 8 a. m., to receive the Baggage, which will be carried free of charge to Calvert Station.

ROBERT STEWART, mar 24—

Ticket Agent.

For students who do not design to prosecute the whole Course required for a degree, a more limited range of studies is furnished, adapted to the sphere and course of life of each individual, so far as such can be reasonably anticipated.

business man.

2. Arithmetic—Comprising numerous abbreviated methods of computing Interest, Discount, Equation of Payments, &c., and other mercantile calculations founded on per centage; together with all such operations as are requisite for a thorough knowledge of the business of the

quieste for a thorough anowage of the business of the counting-room.

3. Book-keeping—Single and Double Entry, by the most approved methods. A complete course of instruction in this branch will be furnished, designed to fit the student to take charge of any set of account books.

4th. An Agricultural Department—Comprising a selection from the English and Mathematical courses; and, also, Surreying, Botany, Mineralogy, Geology Chemistry, and Agricultural Chemistry; the last two illustrated by experimental lectures.

and Agricultural Chemistry; the last two illustrated by experimental lectures.

5th. A Cryn. Engineer Department—In which are taught Arithmetic, (mental and written,) Algebra, (mental and written,) Algebra, (mental and written). Geometry, Trigonometry, Surveying, with the use of instruments in the field, Practical Engineering, Architecture, Perspective, Draughting, and Topography.

6th. A Tracular's Department.—The course of study will consist of a judicious selection of subjects from the other departments, including all the branches pursued in our commou schools. Practical Lectures will also be given on School Traching, both as a science and as an art.

Pupils will not only thus receive the fullest instruction relative to the best and most popular methods of teaching, but they will also have opportunities of exemplifying them, by hearing recitations in the lower departments of tipe Institution.

7th. A Department of Modern Languages—In which

Ist. The astonishing rapidity of the process, surpassing belief—hence the name.

2d. The Cream during the progress of freezing becomes charged with atmospheric air, by which it nearly doubles in bulk, and obtains that peculiar zmoothness, lightness, and deliesey of flavor, for which the Joe Cream of our best Confectioners is so highly prized.

3d. It does not require a tenth part of the lebor that the common Freezer does.

4th. It does its work better, producing a better article, in every respect, than by any other mode.

5th. There is a considerable saving in ice, as the tub needs no replenishing during the operation.

The annexed testimonial from the Proprietor of the Entaw House will put to rest all doubt.

"Having witnessed the process of freezing Ice Cream in Austin's Magio Freezer, two quarts of Cream having been freezen in the incredible short time of six minutes, I cheerfully recommend it to the public."

H. F. JACKSON,

Eutaw House, Baltimore, May 15, 1848.

Newark Academy.

AMERICAN HOUSE. Hanover street, Boston.

THE Undersigned having entirely rebuilt and entired the above extensive establishment, containing in all about three hundred and fifty rooms, would respectfully give notice that it is now ready for the reception and succumodation of the travelling community.

An extended notice of the unsurpassed conveniences of this House is deemed superfluous, as the numerous improvements which have been made cannot be properly given in an advertisement. Suffice it to east that no expense has been spared to render any apartment perfect.

The furniture was made expressly to order, regardless of cost, and certain portions of it, especially the Drawing-rooms, will be found to be of the most beautiful and tasteful manufacture. The Dining-rooms are capacious, and the house for meals will be so arranged as to suit the convenience of the early and late.

Every department will be conducted in an unexceptionable manner, and the Proprietor pledges himself that the American House shall be truly the Traveller's Home.

mar 24 the College as can be prolitably empoyed by academical students.

The charge for Boarding, Washing, Fuel, Light, So, with tuition in the English, Latin, and Greek, is sowenty dollars for the Summer Session, and seventy-five for the Winter Session. The only extras are one dollar per session for incidental expenses, and a fee of eight dollars for Modern Languages, and a fee of five dollars for Drawing, from those who enter these classes. The sessions and vacations of the Preparatory Department are the same as those of the College.

those of the College.

Rev. MATTHEW MEIGS, A. M., Newark, Delaware.

Law Library.

First Series—Porty Volumes.

Twelve Dollars a year, bound—Ten Dollars in Numbers. The cheapest Law Periodical in the United States. It is our determination to make the Law Library the cheapest series of reprints of English Law publications in this country. The Editorial Department will, we trust, be found fully to realize the expeciations of those who have snjoyed Smith's Mercantile Law, Tonebstone, Broom's Legal Maxims, Archbold's Nisi Prius, Archbold's Lamdlord and Tenant, Crabb on Real Proporty, Smith on Contracts. The high reputation which the "Law Library" has acquired throughout the United States, by the character of its volumes, and by the cheap rate at which its valuable contents have been presented to the Profession, is the best evidence we can offer of its merits and its claims for your support. We hope, and will aim, to retain this high character.
